

PROTECTIVE® STRATEGIC OBJECTIVES II VUL

Quarterly performance update as of December 31, 2023

| Not FDIC/NCUA Insured | Not Bank or Credit Union Guaranteed | Not a Deposit | | | | |
|-----------------------|-------------------------------------|---------------|--|--|--|--|
| Not Insured By Any | May Lose Value | | | | | |

Investment options to help protect your future

Your investment strategy can play a critical role in helping you prepare for a future that's worth protecting.

Protective® Strategic Objectives II VUL gives you the flexibility to customize your own portfolio or choose a model portfolio with investment options that are carefully selected based on fund management experience and performance.

Target allocation

We offer model portfolios to help simplify asset allocation for investors with varying risk tolerances. Consider how these turnkey solutions align with your risk tolerance and growth goals.

| Returns for Protective Strategic | Accumulated Value Returns (withdrawal charges not deducted) | | | | | | | |
|------------------------------------|--|--------|---------|--|--|--|--|--|
| Objectives II VUL Model Portfolios | 1-Year | 5-Year | 10-Year | | | | | |
| Aggressive growth | 15.36% | 4.53% | 10.65% | | | | | |
| Growth & Income | 15.13% | 3.55% | 9.43% | | | | | |
| Moderate growth | 15.48% | 2.95% | 9.08% | | | | | |
| Conservative growth | 11.93% | 1.74% | 7.10% | | | | | |

Annual average returns on a hypothetical \$100,000 deposit into Protective Strategic Objectives II VUL policy as of December 31, 2023. Rates of return reflect only the current funds listed inside the models. The value of an investment in the variable universal life funds will fluctuate, so that an investor's units, when redeemed, may be worth more or less than their original cost. This performance data represents past performance. Past performance is no guarantee of future results. Current performance may be higher or lower than performance shown. Performance information current to the end of the most recent month may be obtained by contacting your financial professional.

Performance assumes an investment in the current model composition and does not reflect the changes to the model composition due to previous model updates, including the addition or removal of investment options.

Protective Strategic Objective II VUL Investment options total return performance

^{*} You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

¹ Gross/Net Expense Ratio: Net expense ratios take into consideration fund expenses minus fee waivers and/or portfolio reimbursements. Without fee waivers and/or portfolio reimbursements returns would be lower. The advisor makes no guarantee that fees will continue to be waived following a period of one year from the Prospectus date. Returns are calculated using Net Expense Ratios.

² Returns show the performance and fees of the underlying fund, deductions for the mortality and expense risk charge (deducted daily as a percentage of daily Subaccount net assets), and administrative charge (deducted daily as a percentage of daily Subaccount net assets). Returns do not reflect any optional benefits selected or contingent deferred sales charge (surrender charge). Returns shown represent past performance and do not guarantee future results. Returns and values will fluctuate. The contract value may be worth more or less than the original investment and the actual returns may be lower or higher than the returns shown. For performance to the most recent month-end, contact Protective at 800-456-6330 or visit myaccount.protective.com.

³The returns are calculated from the date the portfolio was first available, shown in the Portfolio Inception Date column and are calculated over the time period shown, regardless of whether the fund was available as an investment option under the contract during that period. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance data quoted. Returns predating inclusion in the product are hypothetical. The returns are from the Portfolio Inception Date through the end of the prior quarter.

Morningstar and performance information

Quarterly and performance information is provided by Morningstar and includes both current and historical data to assist you in developing a diversified investment strategy. The investment options are organized by Protective's investment style category.

Total return

Expressed in percentage terms, Morningstar's calculation of total return is determined each month by taking the change in monthly net asset value, reinvesting all income and capital gains distributions during that month and dividing by the starting NAV. Reinvestments are made using the actual reinvestment NAV, and daily payoffs are reinvested monthly. Unless otherwise noted, Morningstar does not adjust total returns for sales charges (such as front-end loads, deferred loads and redemption fees), preferring to give a clearer picture of a fund's performance. The total returns do account for management, administrative, 12b-1 fees and other costs taken out of fund assets. Total returns for periods longer than one year are expressed in terms of compounded average annual returns (also known as geometric total returns), affording a more meaningful picture of fund performance than non-annualized figures. The Money Market return is based on a 7-day yield.

Annual return

Annual returns are the total returns calculated on a calendar-year basis.

Variable universal life insurance involves the risk of investing in stocks, bonds and other securities, including market, interest rate and credit risk and loss of principal. If the investment performance of underlying investments is poorer than expected (or if sufficient premiums are not paid), the policy may lapse or not accumulate sufficient value to subaccount the intended application. Investments in variable universal life insurance policies are subject to fees and charges from both the insurance company and the managers of underlying investments. Loans and withdrawals may negatively impact policy value, investment performance, death benefit, and any Lapse Protection. The tax treatment of life insurance is subject to change. Neither Protective Life nor its representatives offer tax advice. Purchasers should consult their attorney or tax advisor regarding their individual situation.

Protective Strategic Objectives VUL II (ICC19-V15) is issued by Protective Life Insurance Company (PLICO). Securities offered by Investment Distributors, Inc. (IDI). IDI is the principal underwriter for registered insurance products issued by PLICO, its affiliate. PLICO is located in Nashville, TN. IDI is located in Birmingham, AL. Product guarantees are subject to the financial strength and claims-paying ability of PLICO. Product features and availability may vary by state.

Investors should carefully consider the investment objectives, risks, charges and expenses of Strategic Objectives variable universal life insurance policies and their underlying investment options before investing. This and other information is contained in the prospectuses for the Strategic Objectives variable life insurance policies and their underlying investment options. Investors should read the prospectus carefully before investing. Prospectuses may be obtained by calling Protective at 800-456-6330.
