

Protective® Income Creator fixed annuity

Contract highlights

Consider this solution if you want to protect your principal and create a protected lifetime income stream so you don't run out of money in retirement.

Provides guaranteed lifetime income	<p>How it works</p> <p>This solution also includes the lifetime income benefit, a protected lifetime income benefit that’s designed to create a guaranteed income stream you can’t outlive. The amount you are able to withdraw each year is determined by whether you choose to take payments on a single or joint life basis, the number of complete years that have elapsed between contract issue and benefit election, and the younger covered person’s age at contract issue. Generally, the longer you wait before beginning benefit withdrawals, the higher the withdrawal amount will be.</p> <table><tr><th colspan="3">Annual withdrawal percentages</th></tr><tr><th>Age at issue</th><th>Single</th><th>Joint</th></tr><tr><td>59-80</td><td>6.45%-9.00%</td><td>5.95%-8.50%</td></tr></table> <p>Annual withdrawal percentages are a percentage of net premium.</p> <p>The annual benefit cost at issue is 0.95% of the account value, charged monthly. Lifetime income benefit withdrawals reduce contract value and death benefit. If your contract value is reduced to zero without exceeding the allowable annual amount, you will continue to receive the maximum guaranteed payment each year for the remainder of your life or the joint lives of any covered persons. Your lifetime income may be a combination of withdrawals from your contract value including return of principal and income payments paid by Protective®, if you outlive your contract value.</p> <p>If the contract value is reduced to zero due to excess withdrawals, the contract will terminate on that date.</p>	Annual withdrawal percentages			Age at issue	Single	Joint	59-80	6.45%-9.00%	5.95%-8.50%
Annual withdrawal percentages										
Age at issue	Single	Joint								
59-80	6.45%-9.00%	5.95%-8.50%								
Provides liquidity	<p>Fixed annuities are intended to be used as long-term retirement planning products. But we know sometimes life happens and certain scenarios may require you to access your money earlier than planned. Protective® Income Creator fixed annuity offers many ways to do so—without incurring withdrawal charges.</p> <p>Penalty-free withdrawals¹—Each year, you may withdraw up to 10% of the contract value as of the prior contract anniversary without a withdrawal charge. During the first contract year, the free withdrawal amount is equal to 10% of the purchase payment. The minimum partial withdrawal amount is \$100. Penalty-free amounts not withdrawn within a given year cannot be carried over to the next.</p> <p>Nursing facility confinement/terminal condition waiver—After the first contract anniversary, you may withdraw all or a portion of the contract value with no withdrawal charge or market value adjustment (MVA) should you or your spouse become confined to a qualified medical care facility for at least 30 consecutive days or become diagnosed with a terminally ill condition expected to result in death within 12 months. May not be available in all states, and state variations may apply.</p> <p>Unemployment waiver—You may withdraw all or a portion of the contract value with no withdrawal charge or MVA should you or your spouse become unemployed. May not be available in all states, and state variations may apply.</p> <p>Assumes all qualifications are met, including: employed on a full-time basis upon the contract effective date, unemployed at least 60 consecutive days upon withdrawal and unemployed on the date of the withdrawal.</p>									
Provides security	<p>Interest rates, payments and features of a Protective Income Creator fixed annuity contract are guaranteed by Protective Life Insurance Company and are subject to the claims-paying ability of the company.</p>									
Avoids probate	<p>To help protect your legacy, this fixed annuity includes a death benefit. Should you pass away before starting your annuity income payments, your beneficiaries will receive the full amount of the contract value minus any applicable premium tax without the delay, cost and publicity of probate. The death benefit remains available after your income benefit withdrawals begin, provided the contract value is greater than zero.</p>									

This is a summary of product features. Please consult the contract for a complete explanation of benefits, limitations and exclusions.

Additional information on next page.

Protective refers to Protective Life Insurance Company.

Interest rate	<p>Protective Income Creator fixed annuity earns a competitive interest rate, guaranteed for the duration of the 7-year primary guarantee period. After the primary guarantee period ends, your contract will automatically renew for one year. The new interest rate is guaranteed for that one-year renewal period and withdrawal charges and MVA will no longer apply. A new one-year guarantee period will automatically begin after each renewal period ends, unless you instruct us otherwise.</p> <p>The interest you earn upon renewal may be higher or lower than the interest rate you earned during your primary guarantee period. The interest you earn over the life of your contract will be a blend of the guaranteed rate and subsequent renewal rates. Protective sets interest rates at its sole discretion and cannot predict or guarantee future renewal interest rates. The minimum interest rate is set at the time you purchase your contract and is guaranteed not to change for the life of the contract.</p> <p>Check with your financial professional for current rates.</p>																							
Tax-deferred growth potential ²	<p>Your contract value grows tax-deferred with a fixed annuity. This means you do not pay federal or state taxes until you make a withdrawal. You also benefit from compounded growth, allowing you to earn interest on both your contributions and any previously accumulated earnings.</p>																							
Market value adjustment (MVA)	<p>A MVA will be applied to withdrawals that exceed the allowable penalty free amount. The MVA can increase, decrease or have no effect on the amount deducted from the contract value to satisfy a withdrawal request, based on changes in market interest rates between the contract's issue date and the withdrawal date. Generally, if market interest rates are higher on a withdrawal date than at contract issue, the MVA formula increases the amount deducted from the contract value to satisfy a withdrawal request. Conversely, if market interest rates are lower on a withdrawal date than at contract issue, the MVA formula reduces the amount deducted from the contract value to satisfy a withdrawal request. The MVA is limited to and will not be more than the contract's excess earned interest, which is the interest applied to the contract that exceeds the amount required to attain the contract's minimum surrender value. The MVA does not apply after the withdrawal charge period expires and does not affect the contract's minimum surrender value.</p>																							
Withdrawal charges	<p>Protective Income Creator fixed annuity is a long-term investment and is intended to be held for the entire primary guarantee period. The withdrawal charges (shown below) will be applied as a percentage of any withdrawal that exceeds the penalty-free amount during that period.</p> <p>Contract withdrawal charges—withdrawal charges are based upon the date your contract is issued.</p> <table><tr><th>During contract year</th><th>1</th><th>2</th><th>3</th><th>4</th><th>5</th><th>6</th><th>7</th></tr><tr><th>Change percentage</th><td>7%</td><td>6%</td><td>5%</td><td>4%</td><td>3%</td><td>2%</td><td>1%</td></tr></table>								During contract year	1	2	3	4	5	6	7	Change percentage	7%	6%	5%	4%	3%	2%	1%

This is a summary of product features. Please consult the contract for a complete explanation of benefits, limitations and exclusions.

¹Withdrawals reduce the annuity's remaining death benefit, contract value, cash surrender value and future earnings. Withdrawals may be subject to income tax and, if taken prior to age 59½, an additional 10% IRS tax penalty may apply. More frequent withdrawals may reduce earnings more than annual withdrawals. Because all withdrawals reduce net premium, even penalty-free withdrawals reduce future income. Carefully consider the potential impact of any withdrawals from the contract on your future income needs.

²An annuity contract may be purchased on a non-qualified basis or used with certain qualified retirement plans or arrangements that receive favorable tax treatment, such as individual retirement accounts and individual retirement annuities (IRAs), pension and profit-sharing plans (including H.R. 10 Plans). Many of these qualified plans, including IRAs, provide the same type of tax deferral as provided by an annuity contract, and the annuity contract does not provide any additional tax-deferral benefit. Any annuity contract, however, does provide a number of other benefits and features not provided by such retirement plans or arrangements alone.

Protective refers to Protective Life Insurance Company (PLICO), Omaha, NE.
