Online account management

Visit MyAccount at myaccount.protective.com to manage your account online any time, from anywhere. You can view performance, manage sub-account selection and benefit elections, view documents, update contact information and beneficiaries and more.

Dollar cost averaging (DCA)

Ease into the market and manage timing risk by adding new money to a DCA account. This strategy automatically transfers a specific amount of money from the DCA account to the sub-accounts you select on a monthly basis over a set period of time. Six-month and 12-month DCA account options are available.

Portfolio rebalancing

The sub-accounts you select are automatically rebalanced (quarterly, semi-annually or annually) to maintain your chosen allocation among the sub-accounts.

Tax-free trading

Transfers between sub-accounts and portfolio rebalancing are tax-free.

Automatic withdrawal plan

A level dollar amount is automatically withdrawn from your contract (monthly or quarterly) before the annuity date.

Spousal continuation death benefit option

Your spouse can choose to continue the contract and become the new owner/annuitant.

Legacy control

Select how and when to distribute to your beneficiaries through the pre-determined death benefit payout election form.
