

# Protective® Investors Benefit Advisory variable annuity with SecurePay Pro<sup>SM</sup> benefit

## Securing retirement income for life

People are retiring earlier than planned 54% of the time.<sup>1</sup> For many — faced with circumstances such as health issues or job loss — it's not by choice. A Protective Investors Benefit Advisory variable annuity with the SecurePay Pro protected lifetime income benefit can help grow your income base and create an income stream for life.

### Growth

An annual step-up feature that locks in gains on your income benefit base.<sup>2</sup>

### Flexibility

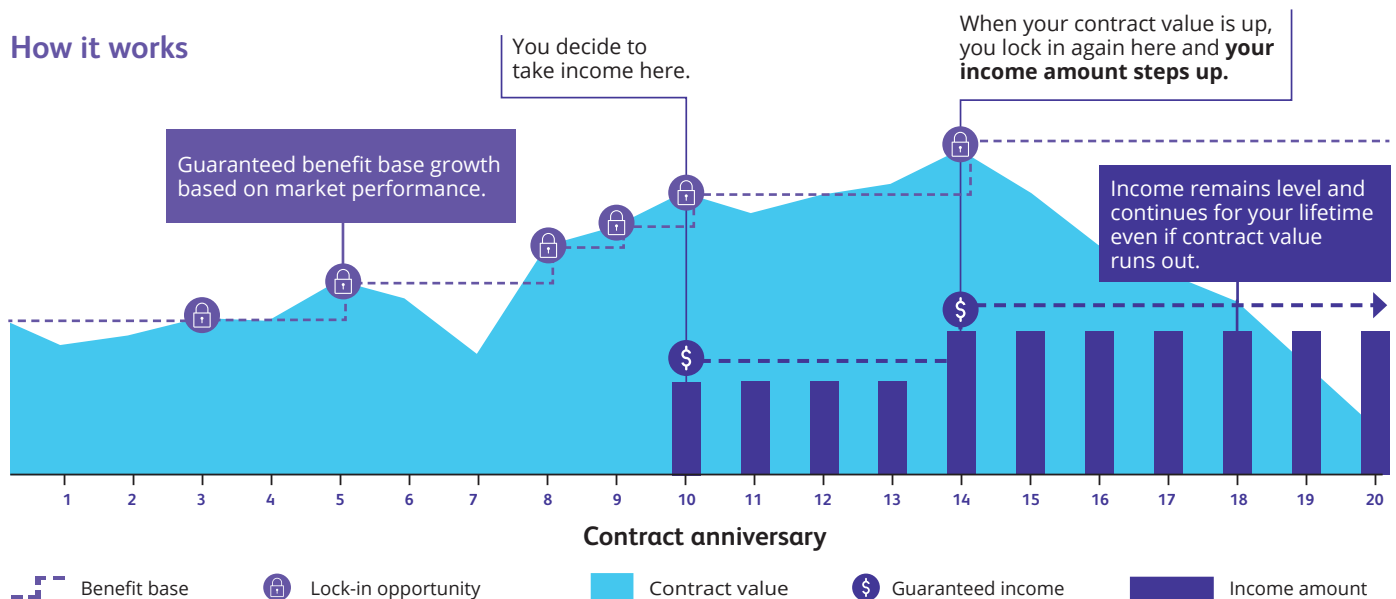

Add SecurePay Pro benefit to your contract at time of purchase or later when the time is right for you with our RightTime feature.<sup>3</sup>

### Income

You'll continue to lock in gains based on market performance even after income election.

### How it works

This chart is hypothetical and intended solely to illustrate the annual step-up feature. It does not represent the performance of any particular investment options. It is designed to show how the annual step-up and benefit base work in an up market. If your contract value is reduced to zero due to benefit withdrawals, your contract will be annuitized and you will begin receiving monthly annuity payments of an amount equal to your last Annual Withdrawal Amount, divided by 12.

### Additional information on next page.

Protective refers to Protective Life Insurance Company.

Once you're ready to start taking income using SecurePay Pro benefit, your lifetime withdrawal percentage is determined by the amount of your benefit base, your age at benefit election and whether you choose to take withdrawals on a single or joint life basis.
