

Manage client income planning with this unique deferral feature

See how Protective® Aspirations variable annuity with the SecurePay ProtectorSM benefit can help deliver strong guaranteed income for life's twists and turns

When clients have strategic income planning needs, like managing taxes, planning a purchase and saving for expenses, show them SecurePay ReserveSM in action. This unique deferral feature, available with SecurePay Protector benefit, lets clients defer up to 3x their annual withdrawal amount to use however they see fit.*

Hypothetical scenario based on historical performance

The table below shows Protective Aspirations variable annuity illustrated year over year. The client in this scenario was age 63 when they purchased Protective Aspirations variable annuity with the SecurePay Protector optional income benefit with an investment amount of \$300,000. The client defers income for 10 years, turns on income at age 73 with a 6.4% withdrawal rate and chooses to reserve a portion of their annual withdrawal amount to build up their SecurePay Reserve account, allowing them to reserve up to 3x their annual withdrawal amount.

1. Client purchases VA in Dec of 2002 at age 63 and defers benefit election for 10 years. The client experiences five step-ups in that period resulting in a benefit base of \$519,779 after the first five years.

2. At the age of 73, the client turns on income. They are able to access \$46,657 from the annuity, but they only take \$25,000 as they have income from other sources such as Social Security, so they activate **SecurePay Reserve**. This feature allows them to reserve 3x their annual withdrawal amount.

3. At age 79, the client experiences a liquidity event and requires more money. The client has access to the maximum withdrawal amount, which is \$46,657 plus the \$108,285 in their **SecurePay Reserve** account that they access. They take \$154,942. This does not impact the guaranteed withdrawal amount the following year.

4. At age 80, they resume withdrawing only \$25,000 annually, allowing the **SecurePay Reserve** account to resume accumulating by \$21,657 annually until the maximum reserve amount is met, providing funds for another future liquidity need.

With the SecurePay Protector benefit, the Protective Aspirations variable annuity contract lifetime income payments of \$46,657 will continue for the life of the covered person.¹ Based on this hypothetical, if your client took their full annual withdrawal amount, that equates to \$896,512 of total lifetime withdrawals to age 95.

* The Maximum Reserve Amount is the lesser of (1) 3x the annual withdrawal amount or (2) the current contract value.

¹ The SecurePay Benefit Base has been increased to equal the SecurePay Anniversary Value. Your Annual Withdrawal Amount has also increased and is locked in for life.

⁵ The SecurePay Benefit Base has been increased due to the compounding roll-up feature. Your Annual Withdrawal Amount has also increased and is locked in for life.

¹ Excess withdrawals (amounts exceeding AWA and any reserve amount) reduce the benefit base, contract value and death benefit and are subject to applicable surrender charges.

Help clients see the power of deferral with quarterly statements

This statement shows how the combination of a strong roll-up rate, compounding growth, opportunity for annual step-ups and competitive withdrawal rates work together to help grow income that clients can use when most needed in retirement.

Clients will receive regular updates of the value of their annuity and any interest or dividends earned along with other important information for tax purposes.

Results are hypothetical and based on historical performance with current contract charges and deductions. They do not represent investment results of any particular investor.

Your Protective representative can provide a full hypothetical illustration upon request for a more detailed description of the scenario depicted in this material.

\$300,000

This is the premium the client paid into the annuity and their initial withdrawal base.

\$420,813

This is the client's current contract value based on the performance of their chosen investment options since the annuity was issued.

\$729,017

This figure is used to determine the client's guaranteed annual income amount. The benefit base is guaranteed to never decrease unless an excess withdrawal is taken.

6.40%

This percentage is used to determine the client's annual withdrawal rate. It is based on the age your client elects to start taking income.

\$129,942

Clients can choose to take a smaller amount of income each year than what is currently guaranteed to utilize SecurePay Reserve. This feature allows them to defer up to a maximum of 3x their current annual withdrawal amount, so in subsequent years, they can take all or a portion of the reserve amount until it is depleted. They have the option to begin reserving again.

\$46,657

Your client's guaranteed income is calculated from the client's benefit base at the time they begin withdrawals. Withdrawals taken before the benefit election date would not be SecurePay withdrawals and would reduce the benefit base.

Allocation Portfolio performance as of 12/31/2024

Total return rates are displayed for the year-to-date (YTD) time period and annualized rates of return are displayed for time periods of 1-year and greater for each allocation portfolio available. Rates of return reflect only the current funds listed inside the portfolio and reflect annual rebalancing. Performance assumes an investment in the current allocation portfolio composition and does not reflect any previous changes to the portfolio composition, including the addition or removal of investment options.

Non-Standardized Returns show the performance and fees of the underlying funds, deductions for the mortality and expense risk charge (deducted daily as a percentage of daily Subaccount net assets), and administrative charge (deducted daily as a percentage of daily Subaccount net assets). The returns are calculated over the time period shown, regardless of whether the portfolio or any constituent fund was available as an investment option under the contract during that period. Performance predating inclusion in the product is hypothetical. Non-Standardized Returns do not reflect any optional benefits selected.

Non-Standardized Returns including withdrawal charges show the performance and fees of the underlying funds, deductions for the mortality and expense risk charge (deducted daily as a percentage of daily Subaccount net assets), administrative charge (deducted daily as a percentage of daily Subaccount net assets), and withdrawal charges based on the years displayed. The returns are calculated over the time period shown, regardless of whether the portfolio or any constituent fund was available as an investment option under the contract during that period. Performance predating inclusion in the product is hypothetical. Non-Standardized Returns do not reflect any optional benefits selected.

The Standardized Returns reflect the deduction of all recurring fees and charges of the underlying funds and the variable contract. Variable contract fees and charges reflected in the Standardized Returns include the mortality and expense risk charge (deducted daily as a percentage of daily Subaccount net assets), administrative charge (deducted daily as a percentage of daily Subaccount net assets). Charges for optional benefits are not reflected in the Standardized Returns. If these charges were reflected, the returns shown would be reduced. Standardized historical performance is limited to the date the funds were first available as an investment option under the contract, shown in the Inception Date column. "Since Inception" returns are from the Subaccount Inception Date through the end of the prior quarter.

Returns shown represent past performance and do not guarantee future results. Returns and values will fluctuate. The contract value may be worth more or less than the original investment and the actual returns may be lower or higher than the returns shown. Performance current to the end of the most recent month may be obtained by visiting protective.com.

Protective® refers to Protective Life Insurance Company (PLICO), Omaha, NE. Variable annuities are distributed by Investment Distributors, Inc. (IDI), Birmingham, AL, a broker-dealer and the principal underwriter for registered products issued by PLICO. Product guarantees are subject to the financial strength and claims-paying ability of PLICO.

Protective® is a registered trademark of PLICO. The Protective trademarks, logos and service marks are property of PLICO and are protected by copyright, trademark, and/or other proprietary rights and laws.

Variable annuities are long-term investments intended for retirement planning and involve market risk and the possible loss of principal. Investments in variable annuities are subject to fees and charges from the insurance company and the investment managers.

Withdrawals reduce the annuity's remaining death benefit, contract value, cash surrender value and future earnings. Withdrawals may be subject to income tax and, if taken prior to age 59½, an additional 10% IRS tax penalty may apply. More frequent withdrawals may reduce earnings more than annual withdrawals. During the withdrawal charge period, withdrawals in excess of the penalty free amount may be subject to a withdrawal charge.

Protective Aspirations variable annuity is a flexible premium deferred variable and fixed annuity contract issued by PLICO in all states except New York under policy form series VDA-P-2006. SecurePay Investor benefits issued under rider form number VDA-P-6063. SecurePay Protector benefits issued under rider form number VDA-P-6061. SecurePay Nursing Home benefits issued under form number IPV-2159. Policy form numbers, product availability and product features may vary by state.

Investors should carefully consider the investment objectives, risks, charges and expenses of Protective Aspirations variable annuity, any optional protected lifetime income benefit, and the underlying investment options before investing. This and other information is contained in the prospectuses for a variable annuity and its underlying investment options. Investors should read the prospectuses carefully before investing. Prospectuses may be obtained by contacting PLICO at 800-456-6330.
