ExtendCare falls under IRC Sec. 101(g), Accelerated Death Benefit guidelines and does not fall under health regulations. This differentiation could affect eligibility for public assistance programs such as Medicaid, Supplemental Income, or others. Purchasers should consult a qualified advisor along with legal or tax advisor to determine if the rider will affect their initial or continued eligibility for public assistance programs or other tax-related decisions.

The ExtendCare benefits are intended to be received on a tax-favored basis under section 101(g) of the Internal Revenue Code. Once eligible for the benefit, policyholders will receive a monthly payment (not exceeding 5% of the base policy's death benefit amount or the current per diem equivalent) accelerated from their policy's death benefit. The ExtendCare rider is intended as a nonmedical supplement. While long-term care riders pay temporary and permanent claims, policyholders with the ExtendCare rider will qualify for accelerated monthly benefits after being certified by a licensed healthcare practitioner as chronically ill for a period that is expected to last 90 days. Additionally, if the benefits for a stand-alone long-term care policy are not used, the policy may end with no payment while the face amount of a life insurance policy with an accelerated death benefit rider will remain intact if the benefits are not used. Once you qualify for the benefit, payments continue every month during the benefit period regardless of whether expenses are actually incurred. The definition of chronically ill is being unable to perform at least two of the Activities of Daily Living (bathing, dressing, toileting, transferring, continence, eating) without assistance for 90 days, or requiring substantial supervision for protection against health and safety threats due to sever cognitive impairment. Lifetime Maximum Benefit is equal to 100% of the policy death benefit.
